## **HANDWRITING**

Fifty years ago people ate ice cream only in the summer. Now it is eaten all the year round. It originated in the Orient, centuries before English school boys first tasted it. Marco Polo saw people eating it there and brought back the idea to Italy. The idea was carried to France. It became very popular in France with rich, and an effort was even made to keep the recipes a secret from the common people. But, of course, they soon learned about this delicious new food and ice cream became popular to everyone.
